

Health, Safety & Environment

UNITEAM is fully committed to take precautionary measurements against all hazard of Health, Safety and Environment. We continuously take care by regularly conducting training and awareness sessions with our staff members.

We ensure that all of our staff members are fully aware of environmental and ecological damages due to pollution and motivated to take all safety precautions in handling hazardous cargoes.

For safety and health of our staff members we provide them with latest and well-calibrated equipment, also upgrades their knowledge with changing rules and regulations that may be implemented from time to time.

We fully contribute, co-operate and adhere to the rules and regulations concerning the safety, health and the environment of our principals at their premises.

Always, our AIM is to achieve a zero incidents related to health, safety & environment.

Chief Executive
